## TO WHOM IT MAY CONCERN

We have established a successful cooperation with MAKRO Consulting, Turkey on a number of vocational education projects funded with support from the Lifelong Learning Programme of the European Commission, such as the projects “*Language Support to Vocational Education and Training in Bulgarian, English, Spanish, Turkish and Romanian (BEST)*”, project number 2008-1-BG1-LEO05-00458 and “*Innovative e-Guide in Construction Workplace Health and Safety (e-Guide CWH&S)*”, project number 2013-1-BG1-LEO05-088722.

MAKRO Consulting is a highly effective, detail-oriented project partner. They used their excellent project management skills as well as their extensive knowledge to successfully implement and complete all project activities and responsibilities. MAKRO Consulting contributed superbly at every level of the projects: from their inception, distribution of tasks and activities, detail planning, execution and completion. Beyond the project implementation process they shared many creative insights which helped to achieve better quality of the final project results and outcomes.

MAKRO Consulting proved to be helpful, attentive and reliable project partner. I would therefore highly recommend MAKRO Consulting to anyone who needs complex, challenging, fast track educational and/or research projects assisted, implemented or supervised.

Yours sincerely:

Assoc. Prof. Petar Antov, PhD
